

New Rural Addressing is now in effect

The new Rural Addressing System is now in effect with Telus having finalized entering the new numbers into their 911 and servicing systems. This

new system allows emergency personnel to locate where the access is for every individual

property. With the new system now in place Woodlands County requests that you remove the old emergency number sign (yellow license plate with red letters) from your property as this system is longer being utilized.

A pamphlet outlining how the rural address numbers are determined and frequently asked questions has been mailed out to all Woodlands

C o u n t y residents and is also available at Woodlands C o u n t y Municipal office in Whitecourt.

If you have any questions or concerns in regards to your new rural address, feel free to contact Debbie Davis at Woodlands County's Main Office in Whitecourt by calling 780-778-8400 or toll free at 1-888-870-6315.
