

Title: Road Construction Plan

Policy No: 3212

Approval: County Council
Effective Date: January 1, 1994

Supersedes Policy No:

Policy Statement: To develop and to implement a plan which will lead to the upgrading of all municipal grid roads.

1. Criteria used for the identification of major roadways eligible for new construction or upgrading shall include the following:
 - a) traffic counts;
 - b) higher than average percentage industrial traffic;
 - c) safety conditions of current roadway;
 - d) requirement of greater efficiency and safety in school bussing;
 - e) alternate routes for traffic flow;
 - f) location of primary/secondary highways and their upgrading schedule;
 - g) high maintenance roads;
 - h) cost effectiveness; and
 - i) road surfacing program.
2. Major roadways in the County that would be eligible for construction will be identified and prioritized (see Schedule "A").
3. Funds for the upgrading will come from the annual construction budget.

SCHEDULE 'A'

Roads Eligible for Construction

Provide a list of planned construction projects by:

Year
Job #
Project Name
Cost
Miles
Width
Cost per Mile
Priority.
